## Auto Jump Starter Quotation

Model	Picture	Packing	Quotation(EXW)	USP	INFO(for each model)
A3				5400mAh USB Output AntiInverse Charging USB 5V microcharging	1. Battery capacity:5800mah 2. Size:125*66*15mm 3. Starting current:200A which are able to start the 12V vehical. 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
A6				9000mAh USB Output AntiInverse Charging Bright LED	1. Battery capacity:9000mah 2. Size:137*77*19mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM23				8000mAh ultra thin USB Output AntiInverse Charging	1. Battery capacity:8000mah 2. Size:137*75*18mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM11				12000mAh USB Output AntiInverse Charging	1. Battery capacity:12000mah 2. Size:130*75*25mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM13				12000mAh USB Output AntiInverse Charging	1. Battery capacity:12000mah 2. Size:135*77*16mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
T6				12000mAh USB Output AntiInverse Charging	1. Battery capacity:12000mah 2. Size:165*75*32mm 3. Starting current:200A which are able to start the 12V vehical. 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM10A				13600mAh Double USB interface Emergency slice knife Safety hammer Emergency start clip	1. Battery capacity:13600mAh 2. Size:160*75*28mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM10B				13800mAh USB Output AntiInverse Charging	1. Battery capacity:13800mah 2. Size:164*75*34mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM15A				AntiCharge 2 USB smart output Build_in LED bright lighting	1. Battery capacity:16800mah 2. Size:167*82*28mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.

TM18C				10000mah Anti charge 4USB smart output Build-in Bright light	1. Battery capacity:10000mah 2. Size:170*80*28mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
B21				10500mAh USB Output AntiInverse Charging	1. Battery capacity:10500mAh 2. Size:178*77*33mm (L/W/H) 3. Starting current:200A which are able to start the 12V vehical. 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
B6				10200mAh USB Output AntiInverse Charging	1. Battery capacity:12000mah 2. Size:180*87*29mm 3. Starting current:200A which are able to start the 12V vehical. 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM25				18000mAh USB Output AntiInverse Charging	1. Battery capacity:18000mah 2. Size:230*87*27mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
TM16				16800mAh USB Output AntiInverse Charging	1. Battery capacity:16800mah 2. Size:155*60*150mm 3. Starting current:200A which are able to start the 12V vehical 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
B10				24000mAh Multi-color lighting Double USB Output Anti-Inverse Charging 12V and 24V for gasoline and diesel car	1. Battery capacity:24000mah 2. Size:66*66*183mm 3. Starting current:200A which are able to start the 12V vehical. 4. With 3 models of LED light(torch/SOS/strobe) 5. The battery can be charged at home(220v) and in car(12v) 6. have function to charge mobile and latops 7. Saving life in emergent situation.
